

7 out of 10 S/4HANA projects fail – how to stay in the 'other 3'?

You've heard the statistic. Most S/4HANA transformation projects derail—cost overruns, missed timelines, business disruption, or limited value delivery. In fact, 3 out of 10 S/4HANA projects succeed — and they all have one thing in common: clear goals, clear governance, clear alignment.

Let's get you there.

ARE YOU...

- An organization unsure where to begin with S/4HANA?
- Caught between multiple migration paths with no clear direction?
- Relying on the "Big SIs" who may not have your long-term business interests at heart?
- Operating without a unified internal vision of what a successful migration looks like?

If any of these sound familiar, your S/4HANA journey could be headed for the **70% that fail**. Let's make sure you're in the successful **30%**.
